

Electronic Indian Postal Order

The Department of Personnel and Training and Department of Posts have launched a service called e-IPO (Electronic Indian Postal Order) to enable Indian Citizens abroad to purchase an Indian Postal Order electronically by paying the fee on-line through e-Post Office Portal.

This facility has been provided for Indian Citizens abroad to enable them to purchase a Postal Order electronically to seek information under the RTI Act, 2005. This facility has been extended to Indian citizens residing in India also with effect from 13.02.2014. The facility is only for purchasing an Indian Postal Order electronically.

The User needs to get himself registered at the website. He has to select the Ministry/Department from whom he desires to seek the information under the RTI Act and the e-IPO so generated can be used to seek information from that Ministry/Department only. Further, an e-IPO so generated must be used only once with an RTI application. A printout of the e-IPO is required to be attached with the RTI application. If the RTI application is being filed electronically, e-IPO is required to be attached as an attachment.
